**"Climate Realism for the 21st Century: Reckoning with
Historical Experiences & Future Trajectories of Change"**

Presented by

William Campbell

Climate Adaptation Specialist

THURSDAY | OCTOBER 30, 2025

1:00 to 2:00pm

This presentation will explore historical human experiences of local, regional, and global Climate Change in the past & present day. It will assess with scientific & policy-based evidence the likely trajectories of Climate Change in the 21st Century, the expected impacts to our global human society, and how Bermuda can adapt and prepare for an uncertain & unstable future.

Learn ways you can be part of the solution, as William shares insights into how you and your community are affected by Climate Change, and what solutions exist already that can be scaled up.

Global warming is accelerating - A call for decisive action
