

ECO 'LUNCH & LEARN' SERIES

Presented by
Bermuda College
& Bermuda Environmental Sustainability Taskforce (BEST)

> BEST and the Bermuda College are committed to providing a forum for learning. With knowledge comes empowerment. Each month we invite the community to learn more about global and local issues while discussing individual and collective solution-based actions that can be taken.

> Our first Lunch & Learn on September 27th featured Nick Hutchings presenting "Energy Conservation: A Matter of National Security".

> The second Lunch & Learn featured Weldon Wade, of "Guardians of the Reef" and Sue Khan of "Naked Zero" presenting on turning their passion for the environment into action.

To read more about their presentations, please visit our website: www.best.org.bm

Bring your own lunch & learn about Bermuda's most pressing environmental issues, followed by a lively Q & A on possible solutions.

The Series continues on the last Thursday in February, March & April 2019

Don't miss our

**THIRD LECTURE IN THE SERIES:
Thursday, November 29, 2018**

Amaris Wharton, M.Sc. presents

'The State of Bermuda's Food Security'

What is food security and how does it pertain to Bermuda and our population?

Bermuda College, Room H100

1:00pm to 2:00pm

This is a free series! No registration required

BEST relies entirely on support from our community. Please consider a donation to assist our work.
