

# ECO 'LUNCH & LEARN' SERIES CONTINUES!

Presented by  
Bermuda College  
& Bermuda Environmental Sustainability Taskforce (BEST)

> BEST and the Bermuda College are committed to providing a forum for learning. With knowledge comes empowerment. Each month we invite the community to learn more about global and local environmental issues while discussing individual and collective, solution-based actions that can be taken.

> Past speakers include Nick Hutchings presenting "Energy Conservation: A Matter of National Security"; Weldon Wade, of "Guardians of the Reef" and Sue Khan of "Naked Zero" presenting on turning their passion for the environment into action; Amaris Wharton, M.Sc, on 'The State of Bermuda's Food Security' & Dr. Robbie Smith presenting 'The Impact of Plastic Marine Debris on Bermuda's Marine Environment' [www.best.org.bm](http://www.best.org.bm)

Bring your own lunch & learn about Bermuda's most pressing environmental issues, followed by a lively Q & A on possible solutions.

The series continues until the last Thursday in April 2019, is **FREE** and no registration is required.

Don't miss our

**FIFTH LECTURE IN THE SERIES:**  
**Thursday, March 28, 2019**

**Laure Marshall presents**  
**'An Overview of the Unsustainable Health Care Costs in Bermuda'**

Healthcare sustainability is strongly linked to the environment as most of it is currently about reactive care and not preventative care that should focus on healthy lifestyles that are environmentally sound.

Bermuda College, **North Hall, Room G301**  
1:00pm to 2:00pm

BEST relies entirely on support from our community. Please consider a donation to assist our work.
